

INVENT HEALTH QUALITY ANALYTICS SUITE

Where Quality Intelligence Meets Care Gap Closure

Health plans face a persistent challenge: quality analytics identify what needs to happen, but care management workflows struggle to make it happen. Quality teams generate comprehensive HEDIS reports and identify care gaps, yet these insights often live in spreadsheets, disconnected from the providers who can actually close them. For Medicare Advantage plans, this disconnect directly impacts Stars ratings and bonus payments. When quality insights don't drive action, plans lose revenue, providers lose efficiency, and members lose care.

Why Invent Health to solve your quality & care gap challenges:

- **Unified platform for risk + quality + encounter analytics**
- **Advanced analytics for real-time evidence extraction**
- **End-to-end audit trail from evidence to submission**
- **Configurable for CMS, NCQA, and custom measures**

Invent Health delivers unified quality analytics and care gap closure insight in a single pane of glass. Built to scale with your business and driven by advanced technologies, our Quality Analytics Suite ensures accurate revenue integrity, improved member outcomes and continuous compliance.

KEY CAPABILITIES	SUPPORTING FEATURES
HEDIS/Stars Measure Engine	Calculates quality measures across lines of business, applying inclusion/exclusion logic, age/gender criteria, and configurable cut point thresholds.
Quality Gap Detection	Identifies open gaps, stratifies members and prioritizes those below cut point thresholds for targeted interventions.
Evidence Extraction	Extracts measure-relevant data (labs, vitals, screenings) from unstructured clinical notes and EMR documentation.
Coder Workbench for Quality	Interactive interface for coders/clinicians to validate evidence and close gaps efficiently.
Supplemental Quality Submission	Generates validated supplemental records for HEDIS/Stars reporting and quality incentive programs.
Quality Insights Dashboard	Provides KPI tracking, cut point comparisons, closure trends, and provider performance metrics.

Select Value Points

- **75% faster** quality measure computation and validation.
- **Up to 40% reduction** in manual chart review effort.
- **Comprehensive measure coverage:** HEDIS®, Stars®, QRS, and client-specific measures.
- **Cross-LOB support:** ACA, Medicaid, and Medicare Advantage.
- **Improved audit readiness** through evidence traceability and compliance logging.

Invent Health is a trusted partner to health plans across all managed care lines of business. Our innovative solutions and unwavering commitment to client success enable managed care plans to solve pervasive risk adjustment, coding, quality measurement and care gap closure challenges.
